Chapter One: Let the Games begin

Hiccup's POV

Ah it was that time of the year, Thawfest has arrived, but it came with a twist. This year not only do we Vikings test our strength, endurance, and courage. The dragons get participate too, last year we were able to have dragons in the Thawfest games with three events too. But that all has change, now we get to test them with our _"girlfriends"_. I know what you're thinking, me and astrid taking on the other Viking couples, tuffnut, maria, ruffnut, fishlegs, snotlout and,â€¦

"YOU'RE MINE HEATHER!" astrid yelled

I looked over to see my beautiful girlfriend throwing her axe at the tree again, releasing her anger, and frustrationâ€¦gods I love it when she does that.

"Are you done milady?" I asked her

Her face went from serious to a happy face, eyes widen, and giggled. She placed her axe down by the tree and walked over to me, I felt her hands sway over my neck, my hands wrapped around her waist; we locked lips for a long passionate kiss. We finally break for air and noticed that it was time to head for the arena, where Gobber was waiting for use inside the arena.

"Welcome to this year's Thawfest gamesâ€¦we have made a few changes. This year you'll be competing together as a couple and the dragons will be competing together as well" Gobber announced looking at his scroll

"Here is the lineup for our couplesâ€¦first one is Hiccup and Astrid along with Toothless and Stormfly" Gobber said

I looked around and saw the crowd cheering for both of us; I looked over at astrid with a smile, as she returned the favor with a wink.

"The second couple is Tuffnut, and Mariaâ€¦the third couple is Fishlegs and Ruffnutâ€¦and finally Snotlout and Heather"

When I heard the final Couple I saw snotlout and heather turned towards us, giving us an evil smirk, I didn't care cause even if I did threw the race last yearâ€¦this time I going to win and I'll do it with Astrid beside me. Then it was time to hear the events for thawfest, gobber pulled out another scroll and began to read off the events

"For the first event the couples will test their strength by carrying their ladies up steepest mountain and back. Event two will be about Trust, that's where the couples will be tested on saving either their boyfriends or girlfriends from a disastrous death . And finally the third event will be the courage event where the couple will come up with the best arrow trick to impress the judges".

Then it was time to announce the dragon events, that's where Stoick the Vast, my father walked into the arena pulled back the scroll. "The dragons will have three events, event one will be fly dancing, that's when the two dragons will try to impress the judges their dancing skills from the skies, without their riders. Event two will free style which involves the couples and their dragons to perform a free style of their choice, and third event fly and shoot where the couples will work together with their dragons to shoot down as many targets in one minuteâ€¦May the best couple Vikings win".

After gobber and my dad described the events Snotlout looked over at me.

"Hey hiccup" he shouted

"What Snotlout?" I asked. He walked over to me looked me in the eyes

"You know what I like about the thawfest gamesâ€¦WINNING!" he shouted "do you think you still have a chance in beating me this year"?

I just rolled my eyes, started to walk over to astrid, placed my arms around her, leaned into her ear and whispered to her _"Snotlout and Heather don't stand a chanceâ€¦ready to kick some ass?" _she turned to me gave me a quick kiss on the cheek, without missing a beat turned her head towards Snotlout and Heather _'Smack' _punched her fist into her hand with a smirk. Then from outside of the arena I could hear the crowed screaming _'HICCUP AND ASTIRD' _I turned back to Snotlout.

"You know whatâ€¦I think I do have a chance, may the best Viking and dragons winâ€¦that's if you don't end up in last place" I finished as me and astrid walked over to our dragons, hopped on and fled the arena cause tomorrow was a big day, a day where I get to finally win the thawfest games

2. Chapter 2-Lady Lugging

**Ok guys here is the next chapter, sorry for the long wait. Let's see how the couples will do in their first event lady lug, will hiccup win or will it be like every year loseâ€¦how far will hiccup and astrid's relationshipâ€¦with that said enjoy ****A/N I don't own anything with DreamWorks or httyd **

Chapter 2: Lady lugging

Next morning Astrid woke up only to find an empty bed, looking confused. She made her way to the arena where she found hiccup getting ready for the first event, she noticed his father Stoick the vast watching him lifting the boulders, along with the other kids and their fathers. Tuffnut and his father were lifting with logs; Fishlegs was lifting basket of fish, which Meatlug and the other dragons were waiting for the fish to drop out, and Snotlout had his father on his back running around the arena both screaming.

"SNOTLOUT! SNOTLOUT! OI! OI! OI!"

00000

Two hours had passed, and it was time to start, Stoick the Vast and Gobber made their way to their seats, Stoick got went to the edge of the arena and began to speak to his village.

"Ladies and Gentlemenâ€¦welcome to this year firsts Thawfest Couples Competitions, everyone knows the rules, with that said LET THE GAMES BEGIN."

Stoick walked over a chest; he opened it and out flew six different colors terrible terrors flew out from the chest into the sky along with the fireworks in the background, the Thawfest games had begun. Mulch and Bucket were the events announcers

"Welcome to the first eventâ€¦the lady lugging" Mulch announce

"It's a good day for lugging the ladies" bucket replied

The four men gathered to the starting lane, Astrid jumped onto Hiccup (giving him a soft kiss on the cheek), Ruffnut climbed onto Fishlegs wrapping her arms around his neck chocking him, Maria jumped onto Tuffnut making him fall and heather pounce on Snotlout without making him move.

"HEY ASTRID!" Heather yelled

"WHAT?" she asked

"MAY THE BEST LOSERâ€¦LOSE" she replied

Mulch was getting ready, "Couples in your Positionsâ€¦get readyâ€¦get setâ€¦GO" with the hit of bucket's bucket the couples ran out of the arena heading for Thor's Mountain. It was the steepest mountain ever on Berk; the couples were making ground to the mountain. Tuffnut and Maria were in first, Fishlegs and Ruffnut were in second, Astrid and hiccup in third place, and Snotlout and Heather in last place.

"COME ON SNOTLOUTâ€¦MOVE YOUR ASS" Heather screamed

Astrid looked over her shoulder to see her evil competitor fading in the dust, she placed her hand on hiccup's chest, and she could feel his heart beating fast.

"You're doing great hiccupâ€¦breath through your nose, trust me" Astrid explained

"Thanksâ€¦Milady" hiccup replied

The couples were making their way up the mountain, when they began their decent back to the arena, the couples started to feel tired and exhausted. Fishlegs collapsed to the ground as Ruffnut fell off him

"Come on Fishlegs we're almost home" she talked as she pushed on him

"Any for you my love" he replied

"What you do Fishlegsâ€¦eat too much fish againâ€¦HAHAH" Snotlout screamed passing him

Fishlegs got mad he picked himself up placed Ruffnut on his back and spirited down the mountain, Snotlout and Heather started making ground, Tuffnut and Maria tripped on a rock and fell to the ground, Hiccup and Astrid took the lead, as they saw the arena in the distance

"Yea Baby!" Astrid screamed

"Hold on babe" hiccup said

She placed her arms around hiccup's neck, and her legs around his waist, she felt a burst of air zip her face as she saw her boyfriend spiriting to the finish line. Out of the corner of his eyes hiccup saw Snotlout and Heather right beside them.

"Not this time Snotlout" Hiccup screamed

"Too Bad Hiccupâ€¦I win this oneâ€¦HAHAHA" Snotlout replied back

Snotlout ran passed Hiccup and Astrid running into the arena first, Hiccup and Astrid second, Fishlegs and Ruffnut third, and Tuffnut and Maria last place.

"The first points go to Snotlout and Heather" Stoick yelled to the crowed. Snotlout was running around the arena screaming his name "SNOTLOUT! SNOTLOUT! OI! OI! OI!" Hiccup was feeling anger inside him only to be punched in the arm

"OWâ€¦what was that for?" he asked

"Don't let him get to youâ€¦you were amazing" Astrid said giving him a small kiss on the lips, when they parted hiccup looked over to Tuffnut and Maria holding each other

"It sucks to see Tuffnut and Maria coming in last placeâ€¦I think we should help them" he asked, Astrid looked at him with confusion look.

"Are you Serious?" she asked

"Well Tuffnut hasn't won an event since he first startedâ€¦let's throw the next eventâ€¦for Tuffnut" he said looking into his girlfriend's eyes, with Astrid looking over at Tuffnut, she saw Snotlout making fun of him.

"Ahâ€¦maybe next year Tuffnut, you'll actually win a medal, but for now I'M WINNING" Snotlout said storming away with heather in his arms

"Okâ€¦anything for Tuffnut and Maria" she replied

It was the end of the first event, Hiccup and Astrid left the arena on Toothless and Stormfly heading towards the cove, Fishlegs and Ruffnut heading to the great hall and Tuffnut and Maria left the arena last

"Sorry I fellâ€¦I'm so clumsy" Tuffnut explained

"Don't beâ€¦I still love youâ€¦there is a lot competition leftâ€¦plus we'll show them in the next event" she replied with a small kiss on his lips. They left the arena and headed to the great hall where everyone was partying and having a good time.

3. Chapter 3 Courage

Hey guys here is chapter 3 sorry for the delay, like I said before I was on vacation and didn't have time upload the chapters, so here is chapter 3 where the couples will be tested on Courage **. It's where the couples are tested on saving either their boyfriends or girlfriends from a "disastrous" death Courtesy of Fanfiction Writer Night Fury. With that said here is Chapter 3 **

Chapter 3: Courage

It was day two of the thawfest-couples games; the next event was the Trust Challenge, Hiccup and Astrid began walking to the arena for the next event, they saw Tuffnut and Maria sitting next to each other holding hands, as Maria laid her head on his shoulder. Hiccup lowered his head, his trustee girlfriend Astrid stop in her track making Hiccup jerk and stop.

"What's wrong Hiccup?" Astrid asked, he lifted his head to her

"We need to help Tuffnutâ€¦I know you want to win butâ€¦" he paused

"But what honey" she asked cupping her hand on his face

"I just don't know if we can do it, do many people to see us helping" he finished

"Don't worryâ€¦there is a lot of competition left, we'll think of something for them soon" Astrid said

The duo made their way into the arena along with Snotlout, Heather, Fishlegs, Ruffnut, Tuffnut and Maria the crowd started to cheer as Stoick the Vast and Gobber enter the arena holding eight jugs, one for each person. Stoick raised his hands in the air and shouted to the crowds, and the couples.

"Welcome couples to the next event, in this event the couples will be tested on courage, but before we get into the event I want to give one of each of you nice cup of mead" he stated

Each person picked up a cup, drank the mead and placed the cups back down, Gobber walked over to the cups and waited for Stoick

"Now that you had a good drink of meadâ€¦Gobber if you can turn the cups over now" Stoick said. Gobber turned all eight cups upside down to show four of them had a green dot on the bottom, Hiccup looked and saw Astrid, Heather, Ruffnut, and Maria's cups all had a green dot under their cups

"The cups with the green dots mean that the Ladies have drunk the mead that had a potion that has the effects of the coldâ€¦and it's up to the men to race to a secret island to retrieve a rare item to make an antidote" Stoick finished.

The crowd did one of those shocking sounds, Hiccup looked over at Astrid. She started to get dizzy, she fell towards the ground

"ASTRID" he yelled

He ran over to her catching her before hitting the ground, the other girls started to feel the effects, especially Maria, Tuffnut grabbed her laying her on the ground, she was heating up fast, Ruffnut was sneezing, and Heather coughing

"Dadâ€¦HAVE YOU GONE MADâ€¦What kind of Challenge is this suppose to be" Hiccup yelled, holding Astrid in his harms

"Son" Stoick said looking at Hiccup

"This challenge is to see which Viking has the courage to fly into the dangers of a mystery island that an unknown dragon that has lived there for before Viking ever set foot. From there you must confront this dragon and explain why you have the courage to risk your live for the person you most care about"

"An unknown Dragonâ€¦huh" Fishlegs asked himself looking puzzled

"Greatâ€¦who cares I'm going to win" Snotlout said making his way hookfang

Hiccup looked over to see Tuffnut whispered into Maria ears, he kissed her on the forehead, and made his way to barf and belch, he jump onto his dragon

"I don't know about you guysâ€¦but I'm going to save Maria" Tuffnut said

Everyone ran to their dragons, when they mounted Gobber started the countdown "In threeâ€¦twoâ€¦" but before he said three, Tuffnut took off and headed for the mystery island, Hiccup was in second Snotlout was in third and Fishlegs was in last place. The riders was flying at top speeds to reach the island first, Snotlout was making ground towards Tuffnut.

"Hey move over loserâ€¦that dragon is mine" Snotlout said

"The only thing you're gettingâ€¦is a punch in the face, you think this a jokeâ€¦all you care about is winning" Tuffnut screamed

"You know that potion is a fakeâ€¦I know Heather, she just faking" Snotlout said

"It's not a joke, Maria never had the cold when she was bornâ€¦she could die!" Tuffnut explained

"Are you sureâ€¦ does my dad know that?" Hiccup asked

"Noâ€¦that's why I have to win this hiccup...not just to have the courageâ€¦but I wouldn't be able to live without her!" Tuffnut finished

The riders finally made to the island, as they dive to land the island started to shoot fireballs towards the riders; the mystery dragon lifted its head and let out a massive roar Tuffnut started his descent towards the dragon. The dragon started firing at Tuffnut;

Fishlegs started to dodge the fireballs too. Meatlug was catching them and fire them back.

"Good girl" he shouted

Snotlout and Hookfang started towards the dragon, Hookfang's body caught fire, throwing flames at the dragon. Snotlout turned around and fired at the dragons back.

"Man this dragon pretty stupid, this is going to be easy" Snotlout stated

Tuffnut was next he sent barf and belch into a dive "get ready" he told them, as they past the dragon's head barf sprayed the gas then belch sparked the gas causing the explosion. This was upsetting the dragon; he started to throw fireballs at Tuffnut. As he was in the dive the dragon continued throwing fireballs at him, but he was dodging them left and right. Then one of the fire balls came out from nowhere and was heading straight for him.

"Tuffnut Look out" Hiccup yelled

It was too late the fireball struck barf and belch, causing Tuffnut to fly off and landed in front of the dragon, Tuffnut got up slowly, it was Hiccup and Toothless turn, with the click of his wing he shot into the air. Hiccup's turn Toothless around fast and shot into a fast descent dive, with wings folded in toothless opened his mouth and released a huge plasma blast causing the dragon to fall. When the dust cleared Hiccup landed next to Tuffnut to help him up. The other riders stood next to the down dragon, the next thing happened shocked the riders

"_WHY HAVE YOU ALL COME TO MY ISLAND" _The dragon spoke

"Youâ€¦you can talk?" Hiccup asked. The dragon nodded, and then Tuffnut made his way to talk the dragon

"We're sorry we attack youâ€¦but we all seek the mystery potion that will cure our maladies" Tuffnut said lowering his head in sadness "including my beloved Maria" he finished

The dragon stood up and looked at all four men then lifted his head letting out four fireballs, which flew over their heads, causing them to turn around. They watch as the four fireballs exploded into four platforms, with a loud roar from the dragon, they quickly turned around

"Pleaseâ€¦each one step onto one of the stones now" the dragon commanded

The dragons was watching everything from behind, they showed their teeth, and growled, event toothless, he knew something was up; Hiccup waved his hands to motion toothless to calm down. The dragons eyes started to glow, the first platform started to rise it was Fishlegs

"State why you have the courage to save the women you love?" the dragon asked this took a minute for Fishlegs

"Before I meet my maladyâ€¦I was always clumsy, her lady friends

never like me, until one day she was pulled into the ocean from a wild dragon, I jumped in, risked my life to save her, and since then it was love at first sight. If she dies tonight I'll lose everything"

The dragon let out a small purr, he's eyes started to glow. A small orb was placed in his hands, next the dragon turned to Snotlout, his started to rise and the dragon asked the same question to him

"Why do you have the courage to save the women you love?" he asked Snotlout didn't take long to answer his question, he placed his hand on his hips and let out a small laugh

"That's easyâ€¦malady and I are like one, we fight together, we work together, plus I'd rather have her live to continue the Jorgenson legacy"

The dragon let out another soft purr, his eyes started to glow and an orb was placed in his hands. Next was hiccup's turn, the dragon eye's glowed and his platform rose to the dragon's face

"I've heard a lot about you, Dragon conqueror, you let a dragon live, train it and became loyal friendsâ€¦you already have the courage for the dragons, but tell me why you have the courage to save the women you love?" Hiccup looked at the dragon lowered his head and gave his answer

"Back home I was called the village screw up, useless, skinny, not the Viking type, couldn't kill a dragon. But when my village was under attack from the red death, I risked my life to save them, even the women I love, she saw something in me, to her I was going to be a good leader for my village, and if she died tonight, I wouldn't have anybody to guide me in the right direction, raise a wonderful family"

The dragon listened to hiccup's story, he's eyes started to glow and laid an orb in his hands. Finally it was Tuffnut's turn, the dragon rose Tuffnut's platform; Tuffnut went down on one knee holding his bad arm and lowered his head.

"Why do you have the courage to save the women you love?" the dragon asked

"Oh mighty Dragonâ€¦I believe I have the courage to save my dear Mariaâ€¦in my life she is my sheep and I'm the shepherd, I'll always protect her, love her, respect her, and I would sacrifice my life to save the only women I ever cared about. That's why I ask you to give me the potion to save her from the nasty potion that could kill her tonight"

The dragon let out a small roar allowing Tuffnut to raise, the dragon's eyes started to glow and an orb had landed in his hands. The platforms started to go down the dragons ran over to their riders ready to take off, as the platforms decent to the ground the dragon spoke to them.

"You all have what it takes to have the courage to save the women you love, protect them, love them, you all are true men" he said lowering his head "you may leave in peace"

Hiccup, Snotlout, Fishlegs, and Tuffnut jumped on their dragons and started to fly back to Berk, now it was a race to the finish. Berk was in sight Snotlout shot past Tuffnut, giving him a nasty look

"Sorry Tuffâ€¦but I'll still going to beat you" he shouted. This was hiccup's moment to help Tuffnut; he shot behind Fishlegs and Snotlout and met up with Tuff

"Follow meâ€¦ when I get in front of Snotlout go around me" he said

"Why are you helping meâ€¦I'll still lose" he asked

"You deserve this pointâ€¦not Snotlout" he answered

Tuffnut nodded his head and followed hiccup, hiccup made his way in front of Snotlout making room for Tuffnut. The plan worked, Tuffnut could see the arena, he went into a dive and pulled away from the other riders. Back at the arena the medical team was keeping an eye on the girls, Stoick and Gobber saw the riders returning. They saw Tuffnut swoop in first took the orb placed it into a cup of water and gave it to Maria. Next was Hiccup, then Fishlegs, and lastly Snotlout

"Ladies and Gentlemenâ€¦the winner for this event is Tuffnut" the crowd went crazy, Tuffnut stood up; looking all beat up, bloody cuts. The girls started to feel better, the potion started to wear off, when Maria found out that Tuffnut won the challenge, she warp her arms around him, and he warped his around hers not letting go.

"You did itâ€¦I'm so proud of youâ€¦and I love you" she said giving him a kiss

"I'll make sure nothing ever happens to you againâ€¦I'll bet my life on that" he finished

Hiccup was watching Tuffnut and Maria leaving the arena for the night, at the same time he was holding Astrid in his arms, as she opened her eyes. He let out a small smile

"I'm so glad you're okâ€¦I thought I almost lost you" he said "sorry I didn't win the race though" she pulled him in and gave him a soft and passionate kiss "I couldn't be any happier, by letting a good man like Tuffnut win the race, that's why I fell in love with you". He let a small smile, as he lean to give her a soft kiss; he felt a small nudge from toothless, giving a small purring sound.

"Ok bud, we'll go" he said

He picked Astrid up and sat her in the saddle, then he jump on place his legs in the device. With Astrid warping her arms around him, toothless flew into the sky, so the happy couple would enjoy the rest of the day in the sky before the next event.

4. Chapter 4 Best Arrow Trick

Hey guys here is chapter 4 of the Thawfest-Couples edition, from where we left off, the ladies had drank a potion that gave them the affects of a bad cold, and it was up to the men to go to a secret island to retrieve ****a rare item to make an antidote, it was to challenge their courage. Tuffnut won the challenge, Hiccup in second, Fishlegs in third and Snotlout came in last. So here is the standings Snotlout in first, Tuffnut in second, Hiccup in third, and Fishlegs in last. So without any delay here is Chapter 4.

Chapter 4: Best Arrow Trick

It was fourth day of the competition, all the couples had a full day of rest and it was time to impress the judges. Hiccup and Astrid was inside the arena sitting on a rock going over their plan.

"Are you sure this is going to work" Hiccup asked

"Don't you trust me? She asked him. Hiccup was looking down at the ground digging his foot in ground

"I do trust youâ€¦it's just what if I screw up and strike you in the armâ€¦or in the legâ€¦or worse in the back"?

Astrid's eyes widen, she lifted Hiccup's head, cupped her hands on his face, placed a soft kiss on his lips. They broke for air when they felt the dirt being kicked in their face; they looked up and saw Snotlout and Heather staring at them.

"This isn't a make out contestâ€¦why don't you two just quiteâ€¦I'm wining this" Snotlout said laughing away. Hiccup got up brushing the dirt off him.

"Never going to happen" Hiccup yelled back

Fishlegs, Ruffnut, Tuffnut and Maria had finally enter the arena, Tuffnut walked over to Hiccup and gave him a hug

"What's the hug for"? Hiccup asked

"Thank you for throwing the raceâ€¦not just to winâ€¦but to save Maria" he answered

Hiccup gave a small smile and waved aside to let Tuffnut and Maria enter the arena, Astrid walked up to him and punched him in the shoulder

"OWâ€¦what was that for"? He asked rubbing his shoulder

"For being a good boyfriend andâ€¦" she pulled him in for a passionate kiss "that's for everything else"

Stoick and Gobber made their way to the center of the arena, the judges where sitting in their chairs waiting for the challenge to begin.

"Welcome Ladies and Gentlemen to the third Challenge of the Thawfest

games, just a reminder tomorrow we will start the dragon challengesâ€¦ for this Challenge the couple will impress the judges with the arrow trick, the couple with the most points out of nine wins. To start things off Fishlegs and Ruffnut are up first" Stoick finished. Fishlegs eyes widen with fear

"Ahâ€¦sirâ€¦um can't someone else go first, I'm not ready" Fishlegs asked looking scared.

"Quit now Fishlegsâ€¦or Ruffnut might kill you" Snotlout laughed

"Shut up Snotloutâ€¦Fish you can do thisâ€¦I believe in you" Ruffnut said as she continued "We call this trick â€¦THE DEFINING LEAP OF AWSOMENESS" she finished.

They both got into their positions; Ruffnut was hanging upside down with an apple in her left hand and one in her right hand. She places the bow between her legs on an angle; next she sets two arrows in place with her mouth. The crowd cover their mouths; Ruffnut pulls back the rope releasing the arrows into the air. "AH" the crowd reacted. The arrows disappeared for a split second, then reappeared descending towards Fishlegs. His heart was beating fast, but at the same time he was talking in his head

"_Oh Odin please don't let me screw up" _in his mind he stated

Fishlegs saw the arrows again; he started to run towards them. Then he leaped into the air catching the arrows with his hands, as he was running he saw the wall, then arrows. He jump onto the wall, turned around, placed the arrows on the bow pulled back and fired the arrows toward Ruffnut. The arrows was heading towards her, then they started to pull away from each other, making their way to the apples in her hands

"SWISHSHS" the first arrow striking the apple out of her right, the second arrow Clank landed inches from her left hand

"Darn" he said

The judges talked then gave their score 3â€¦1â€¦1

"5 out of 9 for Fishlegs and Ruffnut, great jobâ€¦next up are Tuffnut and Maria" Stoick finish. Tuffnut and Maria made their way to the center of the arena; the crowd began to cheer when Tuffnut started to lift his hands into the air. Maria went one side; Tuffnut went to the other side.

"Our trick is calledâ€¦THE APPLE KABOB" Maria shouted to the crowd

"Theâ€¦what"? Snotlout asked

In the middle was a fire pit, Tuffnut and Maria was standing on opposing sides. Tuffnut pulls out a huge arrow, places it in place on the bow pulls back the string. Maria holds out three apples, she looks at Tuffnut.

"Are you ready"? She asked

"READY" He yelled back

"SWISHSHS" Tuffnut released the arrow into air with an arch movement, as the arrow was approaching halfway; Maria threw three apples into the arrow's path. The arrow caught the apples, and started to decent towards Maria. She turned her body sideways, with quick reflects she grab the arrow with her hand placed the arrow in the bow and repeat the shot towards Tuffnut.

Tuffnut threw three more apples in the arrow's path; it caught all three apples, and started to decent. Tuffnut turned to the side, caught the arrow and shot towards the bulls' eye board on the other side of the fire pit "PING" it hits the board dead on.

"Bulls eye" Tuffnut screamed

"Yes babe we did itâ€¦it worked" Maria said with excitement

The crowd stood up and cheered, Maria ran to Tuffnut wrapped her arms around him. They looked over to the judges who was still talking then gave them their scores, 2â€¦2â€¦2.

"6 out of 9 for Tuffnut and Mariaâ€¦wow that was an incredible performance, and next up is Snotlout and Heather" Stoick said to the crowd.

"I don't know about you...but that trick was lameâ€¦we got something better" Snotlout said

"I hope you fail Snotloutâ€¦your nothing but greedy cruel and pathetic" Tuffnut said

Snotlout and heather got ready for their trick; heather went one side of the arena and placed three small ring holes, Snotlout place three small rings on his side. Heather ran to the other side got on her knees turned her body sideways and placed the apple in her mouth. Snotlout turned to the crowd and shouted

"This trick is called the rings of deathâ€¦Ready babe?" he shouted

She gave the thumbs upâ€¦it was time impress the judges, Snotlout placed the arrow in position pulled the string on the bow "SWISHSHS" he released the arrow, it shot thru the rings hitting the apple, knocking out of Heather's mouth. The crowd cheered but it was Heather's turn, Snotlout sat down on the ground, he placed the apple on his left shoulder. Same thing Heather pulled back the string "SWISHSHS", her arrow was passing thru the holes. On the last ring hole the arrow back end it the outer rings causing it dip just little, Heather clap her mouth to see the arrow striking Snotlout in the arm.

"AHAHAH" screamed Snotlout

"Sorryâ€¦I'm so sorry" she said running to him

Heather holding Snotlout in her arms, she helped him up and started to take him to the healers, he looked up at the judges to see their scores 0â€¦1â€¦1. Stoick walked to the center of the arena, he raised

his hands for the crowd to be silence.

"Ok Ladies and Gentlemen on to the last couple please put your hands together for my son Hiccup and his lady Astrid. Hiccup and Astrid made their way into the arena, the crowd went wild. They were cheering and yelling, like the thunder from Thor almighty's hammer. It was time to show the judges, they were staring at each other saying things then broke away. Astrid grabbed an apple; she got some rope and went over to hiccup. She placed the apple on his head tied it with rope and ran to the other side. She then place one apple on her head, one in each of her hands

"We call this trick...FLAMES OF DESTRUCTION" She yelled looking at hiccup giving him a wink, and then turning her back towards him. The arrows were standing next to Hiccup who was shaking, he picked up three of them dipped the arrow heads into the oil. Then he placed the arrows near the fire to ignite the arrow heads, he points the arrows at the targets on Astrid's head and two hands, he pulls back the bow.

"_Here goes nothing" _he whispered, "SWISHSHS" the arrows shot towards Astrid, the first one started to head towards her left hand, the second one headed towards her right, and the last one to her head. "PING" The arrows were in sync they penetrated the apples at the same time, and slammed into the boards, which later caught fire. They weren't done yet; Hiccup picked up the last arrow, dipped it into the oil, lit it on fire, pulled back on the string, and aimed at Astrid's back. The crowd was gasping, watching the future chief of Berk firing an arrow at his lady. "SWISHSHS" he releases the arrow, Astrid hears the release, with seconds to spear she grabs the flaming arrow out of mid flight, turns around and fires the arrow at the apple on top of Hiccup's head knocking it off clean.

The crowd screams with excitement, Stoick even cheered, he couldn't believe his eyes. Hiccup was glad it was over, he ran over to her to hug her, only to be punch in the arm again

"OW what was that for" he asked

"That's for doubting me" she answered then kissed him on the lips

"That's for everything else" she said

Stoick made his way into the arena with excitement; he looked at the judges who had made their final decision here are the scores 3â€¦3â€¦3.

"A PERFECT SCOREâ€¦HOLY THOR ALMIGHTY" Stoick yells the crowd cheered and screamed, Hiccup and Astrid hugged and kissed. Then Stoick lifts his hands in the air for silence

"Today was an exciting day for our couples, they did a wonderful job. Lets us celebrate the first half of the Thawfest games at the great hall tonight, tomorrow we begin the dragon's competitions with the first event flying dancingâ€¦see you all at the mead hall"

Everyone was leaving the arena heading towards the great hall, Snotlout and Heather started to leave when they were stopped by Tuffnut

"Hey Snotlout what happened thereâ€¦I thought you had it" he asked

"Shut upâ€¦it wasn't badâ€¦who cares at least I'm still winning" he answered

"You might want to check that again" Hiccup said pointing to the scoreboard

Snotlout looked up at the scoreboard, it showed Hiccup, Astrid, Tuffnut, Maria, Heather, and Snotlout tied for first place. Snotlout's face went red, his hands clinch with anger

"Who cares this is the number of wins I need" he said flashing two of his fingers and walking out of the arena Hiccup placed his arm around Astrid and started making their way to the great hall, Tuffnut and Maria ran up aside them to chat

"These games are going greatâ€¦you guys really deserve to win" Tuffnut said

"Thanks Tuffnutâ€¦but you still can take the lead" Hiccup said

"I hope your rightâ€¦well good luck to both of us" Tuffnut said

"Thanks Tuff see you at the hall" Hiccup said watching Tuffnut and Maria walking up to the hall, then stops walking, making Astrid stop too

"Everything ok?" she asked

"Yeaâ€¦everything is great...just thinking how I'm going to get toothless to wear his tail for tomorrow's event" he said staring at Astrid "Don't worryâ€¦I'm sure Stormfly will knock some sense into him" she said as they walked into the hall and the doors closed.

A/N: Man what a long Chapter, sorry it took so long, I wanted to make sure I wasn't copying the other tricks, plus I been busy getting ready for my big story or sequel, I'm working on the last chapters of this story and will soon add them when I'm done, thank you for being patient, Matt the vast sighing off.

5. Chapter 5 Flying Dance part 1

Hey guys Matt the vast, I hope, your liking the story, I'm sorry it's taking longâ€¦I hope you're not upset**. But moving on, the first half of the competition had come to an end. Now it was time for the Dragons to show off their skills to impress the judges. The dragons have three events flying dance, free style, and third is fly and shoot. The standings show that there is a three way tie for first placeâ€¦let's find out how the dragons do on their first event, this chapter has two parts. **

Chapter: 5 Flying Dance part one

The Thawfest games were getting intense, now it was time for the

dragon's turn to impress the judges and the village. It was the night before the next event; Snotlout and Heather were in the arena training their dragons their dance move. Tuffnut, Maria, Fishlegs and Ruffnut were at the docks training their dragons by the dock. Hiccup and Astrid were over at the cove, things weren't going well, we find our favorite couple tackling Toothless to the ground.

"ROARRR" Toothless yelled

"It's for your own good budâ€¦please stop struggling" Hiccup said

"Please toothless...please wear the wing" Astrid said cupping her hands onto toothless nose

Hiccup made his way towards Toothless's tail, when he was about to attach the automatic wing, Toothless flew his tail forwarded tossing hiccup and the tail into the water. Astrid tried to calm toothless down only to be pushed into the water; he stood up and ran over to the other side of the cove. Astrid swam towards hiccup and brought him ashore

"It's going to impossible to get him to wear that wing" Astrid said

"He's just being a baby booâ€¦I'm all out of ideals" Hiccup finished

Stormfly was sitting patiently; she looked over at Hiccup and Astrid as they tried another plan. She walked over to toothless, sat beside him and nudges him in the side, his eyes narrowed and growled. Stormfly made a squawking sound turning her head

"_Why don't you wear that thing?" _she asked him

"_I don't want tooâ€¦my rider and I are as one," _he stated

"_I know you two are as oneâ€¦I know how much you two love doing great things, but right now, he can't ride with you in this event" _she said rubbing her head on near his neck

"_Why can't they just bend the rules just this once"_ Toothless asked

Astrid stopped paying attention to Hiccup, she looked over, to see Stormfly rubbing at toothless, purring at him, she punched hiccup in the arm.

"OW what was that for" he said

"Look over there" she said pointing over at Stormfly and Toothless, who was both purring at each other.

"Are theyâ€¦in love?" hiccup said looking confused and starting to stand up

"Iâ€¦I think soâ€¦but it can't beâ€¦ahâ€¦get down" she said pulling him down Stormfly looked over to see what Hiccup and Astrid was doing then she continued talking to Toothless.

"_We must obey the rulesâ€¦I know you don't like it, I know your scared of flying by yourself"_ she said

Toothless got up, and started to walk away from her, but she jumped over him, extending her wings, letting out a screeching sound.

"_Don't you walk away from me"_ she said yelling at him

"_Let's just forfeit this event" _he said lower his head

"_Why?"_ she asked

"_I can't dance"_ he said looking down at the ground.

Stormfly walked over to him, she lowered her head, making a purring sound, nudging each other's noses, they opened their eyes looking into each other.

"_I'll help youâ€¦you just need to trust me" _she said

"_I do trust youâ€¦it's just I'm scared"_ he said. Stormfly kept looking at him

"_You need to believeâ€¦ not just in me but in yourself too; because not only do we need youâ€¦I need you"_ she said. Toothless eyes widen, when she said that, he lifted his head, looked into her eyes. She made a small squeak sound; both turned the opposite sides and rubbed each other sides.

Hiccup and Astrid's jaw dropped and eyes widen, they couldn't believe what they saw, Toothless lifted his head quick to them, they shot around pretending nothing happened. He let out a small grunt sound, and then started to walk toward Hiccup and Astrid with Stormfly right behind him. Hiccup and Astrid watch as Toothless walked over, picked up the wing, and placed it next to hiccup.

Hiccup stood up grabbed the wing, he placed his hands on Toothless's nose, he let out a small purring sound, then went over to his tail and attached the wing to Toothless. Astrid walked over to Stormfly patted her on the head.

"Well I think it's time we did some dance practiceâ€¦Stormfly show Toothless how it's done. That whole night they practice their routine, they laugh every time Toothless screwed up, but Stormfly helped him fix his mistakes, when they had it right, it was time for bed. They flew into town heading towards the haddock house; they landed and headed inside the house, Hiccup and Astrid walked in first then Toothless, and Stormfly. It was late so Hiccup and Astrid went upstairs and Toothless and Stormfly slept down stairs, cuddling next to each other, while Hiccup and Astrid stared at them.

"Your dad is so going to be upsetâ€¦what's going to be your excuses?" she asked

"I don't yet, I think about it when I hear him tomorrow morningâ€¦maybe" he finished

The couple went upstairs to get some sleep because tomorrow was a big day for the dragons, and knowing Toothless, he now knows that he can

win, now that he has that special friend with him.

A/N: Ok guys I decided to make this chapter two parts and here is why. If you watched the snoggletog clip from a gift from the night fury, hiccup made a new wing for Toothless to fly by himself, so he could be with the other dragons, but when toothless came back he swung the tail off, because he wanted to always with hiccup no matter happened. But with the help from Stormfly, coming clean about actually having feelings for Toothless, let me know what you think, and read part two of the flying dance.

6. Chapter 5 Flying dance part 2

Ok guys here is the second part of the flying dance I really hope you like it, let's see how the couples dragons do in their three events, if there isn't anything else to add then on with the event!

Chapter 5: flying dance part 2

It was the morning of the start of the dragon's event; everyone was heading for the start of the event. Hiccup and Astrid was walking downstairs of hiccup's home, they saw Stormfly and Toothless still sleeping in the same way they came home. They both smiled, but it was time to wake the two love birds up.

"Ok you twoâ€¦wake up" Astrid said

"Come on budâ€¦wake up before dad finds you two in here" hiccup said in a soft voice.

The two dragons got up stretched their wings out, both made a purring sound and nudged both their riders then they headed for the door without waking Stoick up, once they were outside Hiccup and Astrid jump on Toothless and Stormfly and made their way to the arena. Once they entered the arena, the whole village was there including Stoick, and Gobber, Hiccup and Astrid both put their hands behind their necks as Stoick looked at them.

"I have to speak to you both after the event" Stoick said

"Dadâ€¦Iâ€¦I can explain" Hiccup said

"Later sonâ€¦you two ready?" he asked

Both nodded their head dismounted their dragons; Hiccup went over and attached Toothless's Automatic wing. When he was done he cupped his hands onto Toothless's snout, which let out a small purring sound.

"You'll do great I know you willâ€¦just follow Stormfly's moves and you'll do fine" Hiccup said

Toothless let out a small roar, while nodding his head, over where Astrid was standing with Stormfly she was telling her the same thing.

"Toothless needs your helpâ€¦I know you two, have something, show

them what you two are made of" Astrid said and walking towards Hiccup. Snotlout and heather made eye contact with Hiccup and Astrid then Snotlout decided to say something smart

"Hiccup, Astrid...good luckâ€¦ NOT, I hope toothless step on Stormfly's feet, oh that would be so bad for you" he said laughing as he walked away Toothless eye's narrowed opened his mouth and shot a plasma blast at Snotlout's feet, making him jump

"You better watch yourself Snotlout, You just made Toothless really pissed" Astrid said

"Who caresâ€¦I'm winning this and bring the glory to the Jorgenson clan" he said walking away

Stoick walked to the center of the arena, put his hands up to silence the fans. The couples were standing next to their dragons when Gobber pulled back the script and started to read the rules of the event

"For this event the paired dragons will fly in the air, while the band plays the music, from there the dragons must show the judges their flying dance skills in order to win, the most points the couple will get is 30 points. Since Tuffnut and Ruffnut share barf and belchâ€¦Maria and Fishlegs dragons Meatlug and Adalinda will pair up together and go first, then Snotlout and Heather dragon's Hookfang and Lady, and finally Hiccup and Astrid's dragon's Toothless and Stormflyâ€¦"

"Looserâ€¦mm" Snotlout said in a fake cough

The couples went to their locations in the arena to watch the first pair go first, it was Barf and Belch with Meatlug, and Adalinda. The music started to play and the dragons took off into the sky. The pair was doing great until the half way point something goes wrong, there was a loud screech from Adalinda, Meatlug flies into her causing her to crash into Barf and Belch. All four dragons get tangled and started to plumbed to the ground, then Toothless activated his wing shot into the air with Stormfly behind him, grabbed them and brought them down safely.

"What happened Fishlegsâ€¦It was working" Tuffnut ask him Fishlegs was scratching his head, trying to figure out what happened

"I don't know Tuffnutâ€¦it had to be something with Meatlug, she was fine before" he said

They looked up at the judges who were talking together to find out what score to give them, then they flashed their cards 5â€¦5â€¦4. The score was 14 out of 30. Next was Hookfang and Lady's turn, Snotlout walked over to Tuffnut, Maria, Ruffnut, and Fishlegs with a laughing smirk

"Good job dragon'sâ€¦Now it's time for Hookfang and Lady" Gobber stated

"Let me show how it's done boys and girlsâ€¦Hookfangâ€¦Lady show them" he yelled. Hookfang and Lady shot into the air, the music started to play, they were doing everything smooth, flying beside each other, eyes were in sync, both of their wings were spread at the

same time and doing spirals up, then diving to the ground, landing perfect. The crowd went wild, cheering their names; they lifted their heads and walked over to their riders, feeling that they won.

"That's rightâ€¦that's how you do it losersâ€¦AHAHA" Snotlout said pointing his fingers at them. The judges had time to discusses and gave them their scores, 8â€¦8â€¦8.

"24 out of 30 that was incredibleâ€¦now it is time for our last pair, Toothless and Stormfly, ready when you are" Gobber said. Stormfly walked over to the center of the arena, she turned her head towards Toothless who was still scared of going, and his eyes puffed ears down. She let out a small Screech sound.

"What's the matter toothless, can't you fly aloneâ€¦without hiccupâ€¦looks you lose I win" Snotlout said, then to be wacked by Stormfly's tail, flying him into the water bucket, she turned her head again looked at him

"_Toothlessâ€¦believe in me...please, don't just do it for the competitionâ€¦do it for me please?" _she said. He looked around he could see Snotlout still laughing as he was sitting in the water bucket, then something happened. He's eyes narrowed he got up walked over to Stormfly. _"Let's do this" _he told her, she turned her head and rubbed his side, then turned to the band

"ROARRR" he said

It was the sign to start the music; they took off into the sky, both shot into the air, Stormfly could hear the music, when she heard the right temple she looked at Toothless.

"_Ready?" _she asked, he nodded. Toothless and Stormfly spread their wings, they grabbed each other by the arms, and they began with spiral spin to the ground. The crowd was gasping they were inches from the ground, they broke from each other. They flew back into the air; it was for the finale act

"_This is itâ€¦are you sure you can do this"_ she asked him

"_I want toâ€¦just to shut that Viking up"_ Toothless said

Back at the arena Hiccup and Astrid was watching them, Hiccup was pacing back and forth looking up while Astrid kept her stance watching Stormfly

"What if he can't do it?" Hiccup asked

"He'll do fine trust me" she finished

They started the final act; they begin by spreading their wings again, both of their hind legs interact with each other, and then with his front paw, grab her front talon on her wing. He lowers her body so it's 180 degrees, she lets her feet go, wings span. He begins to spin her around and around, then releases her and dives right to the arena. Once Stormfly had her legs in the air, she folded her wings in and dove for the arena. It was seconds before Stormfly was going to hit the ground, the crowd started to scream.

"ROARRR"

But then quick black figure shot underneath her, caught her in his front paws, and stick the landed without dropping her. The crowd cheered and screamed to see a dragon catch another dragon in its two front paws, the judges were shock, Stoick and Gobber's mouth's had dropped

"THAT WAS AMAZINGâ€¦I CAN'T BELIEVE ITâ€¦HE CAUGHT HERâ€¦OH THOR ALMIGHT" Stoick said with excitement. Toothless lay Stormfly down carefully and walked over to Hiccup and Astrid then looked at the judges for the score. They were 10â€¦10â€¦10.

"A PERFECT SCORE" Gobber shouted

"Oh come onâ€¦he got luckyâ€¦I bet Hookfang could do that" Snotlout said

Toothless heard Snotlout and walked over to him, his eyes were narrowed, Snotlout felt unsafe right now, Toothless let out small growl, then back off when he heard Stormfly

"Don't botherâ€¦let's go flying" Stormfly said

"Ok" he said He turned back at Snotlout, who was scared to death looked at him at close range then he let him have it

"ROARRRRR"

The roar was so strong that Snotlout helmet flew off and his hair was a mess, Stormfly flew into the sky with Toothless following. Stoick put his hands up to quite the crowd, and to speak

"Well today's event was fun, and the winner for this event is Stormfly and Toothless, it's been a long day, so let's all head up to the great hall for a big feast"

It didn't take long for the arena to empty out, Snotlout and Heather went home to shower after he got dragon breath all over him, Tuffnut and Maria went back to their place to get ready for the next event, and Fishlegs and Ruffnut was still figuring out how Toothless pulled off that stunt

Hiccup stood over by Astrid placing his hand in hers, they both turned to each other to lock lips only to be stop by Hiccup's father

"You still have to explain to me why both dragons were in our house Hiccup" he said looking at Hiccup, who started to answer

"Well dadâ€¦you see" just as he was about to answer he was scooped up by toothless along with Astrid being picked up by Stormfly and both flew into the night to get ready for the next event, his dad smiled and laughed and started to make his way to the great hall, just as he did he whispered _"kids will be kids"_

**A/N: Wow what a great chapter, I didn't think I needed two parts but I felt long, I wanted to make sure that I wasn't copy from the other couples tricks, if you think I should have done better shoot me a pm with a better one and I'll replace it. But if you like it, I

have the next one up soon but until then please review and follow me Matt the Vast out :) **

7. Chapter 6-Free style

A/N: hey guys here is Chapter 6 of Thawfest-Couples edition. The next event is called free style; let's see what the couples have in store, with the standing on the scoreboard Hiccup and Astrid are in First place with 3 points Snotlout and Heather in Second Place with 2 points Tuffnut, Maria, Fishlegs, and Ruffnut are tied for last place with 1 point. I hope your liking the story enjoy the next chapter please review.

Chapter 6: Free style

It was time for the next event, Bucket and Mulch went over the announcers get the event started "Ladies and Gentlemanâ€¦welcome to the second dragon event of the Thawfest Couples, today the couples and their dragons will perform a free style" Mulch said

"I do love a great performanceâ€¦I'm so excited" screamed Bucket

"In the free style the dragon and the riders will show off their style in front of the judges and to you lucky fans. So here is Gobber with the rulesâ€¦take it away Gobber" Mulch finished

"Thanks' Mulch the couples will be scored by our three judges, the couple with the most points out of 9 will be the winnerâ€¦Now to start things off Ruffnut, Fishlegs and Tuffnut, Maria, you guys will go first because of Barf and Belch"

The two couples jumped on their dragons, and took to the skies; the dragons were at high altitude. The couples stood up and looked at each other Tuffnut looked at Maria then Fishlegs and Ruffnut

"YOU GUYS READY?" he shouted. They all shook their heads

"JUMP" Tuffnut screamed.

They jumped off their dragons, and started to decent to the ground all four Vikings formed a circle by grabbing onto each other's hands, then Tuffnut shouted towards the dragons

"BARFâ€¦BELCH, YOUR TURN" He said

"OK MEATLUGâ€¦ ADALINDA YOUR TURN" Fishlegs said

The dragons extended their wings grabbed each other's arms and legs to form a bigger circle and decanted to the ground. Fishlegs, Tuffnut, Ruffnut, and Maria were in the center of the bigger circle made from the dragons, when they both were edging to the ground they parted away jumped on their dragons, did a complete 360 and stick the landing. The crowd went crazy bucket and mulch walked over to the couples

"What a great performanceâ€¦That was an awesome free style we have ever seenâ€¦let's see what the judges score" Mulch said. The judges talked it over then showed the scoresâ€¦2â€¦3â€¦2

"7 out of 9" for the couple's first free styleâ€¦ now let's move on to the next Coupleâ€¦Snotlout and Heather it's your turn" Mulch said. Snotlout and heather walked over to the center of the arena with Hiccup and Astrid following behind, Snotlout looked at the matching couple who was wearing the same outfit, with a laughing smirk he pointed and spoke

"What is that you're both wearingâ€¦because it really looks dumb on youâ€¦especially you Astrid" Snotlout said walking away

Hiccup and Astrid was wearing what looked like some sort of flight suit, hiccup's suit was constructed out of leather, had a dagger holder compass, and had the Berk symbol. Astrid's flight suit was similar to hiccups but hers was designed different, she had the spiked skull skirt. On her upper part of her body it was all leather, hiccup made sure it would fit herâ€¦hoping it wasn't hurting her chest

"I look dumb" she whispered to hiccup

"You look beautifulâ€¦besides wait till they see our act" he said

Snotlout and heather took to the skies as the crowed watched; they started with turns and spins, then they both put a cloak on and from the sky Snotlout shouted "FLAME ON" both Monstrous Nightmare caught fired with the riders on their backs, then started to head for the arena. Snotlout and heather got up from their saddles and stood upside down as Hookfang and lady were approaching the arena, when they reach inches to the ground they flipped off the dragons to stick the landing and crossing their arms, then the dragons sliding into the arena right behind them and extended their wings.

"WOW what a performanceâ€¦this was one of the best ones we've seen all day! Let's see what the judges think" Mulch said as he looked at them. The judges were talking for a long time then gave them their score 3â€¦3â€¦2.

"8 out of 9 what a great job to Snotlout and Heatherâ€¦now for the last couple Hiccup and Astirâ€¦ where did they go?" Mulch asked. Then from the sky there were a loud roar

"ROARRRR" Toothless made

The crowed and Stoick looked up and saw Hiccup and Astrid starting their free style, they started doing back flips on their dragons, then they ran to the ends of Toothless and Stormfly's tail bent down and both Toothless and Stormfly lifted their tails shooting Hiccup and Astrid into the air. Toothless and Stormfly went into a dive heading for the arena, as for the two couple, they began to decent to the ground in a diving motion, they came together locked into a passionate kiss as they passed the dragons.

"AW" the crowed said

They parted, Hiccup and Astrid both hit the center device on their flight suit, Hiccup's opened but Astrid's wasn't opening.

"HICCUPâ€¦HELP!" she shouted

The ground was coming close, Hiccup didn't have time to fix itâ€¦he needed to save Astrid. He shot over to her, wrapped his arms around her, turned her so she was on top he turned his head

"TOOTHLESSâ€¦STORMFLY" he yelled

Toothless and Stormfly shot into a quick dive landed right under them as they hit their backs and crashed into the arena. Stoick ran to Hiccup and Astrid

"HICCUPâ€¦ASTRID, are you ok?"

The dragons were laying there unconscious, then Stormfly opened her eyes letting out a small purr to wake up Toothless, he opened his eyes and let out a small snort. The crowed had their hands over their mouths waiting for the couple to move, Hiccup laid there holding Astrid

"OHâ€¦" the crowd gasped as Astrid started to move looking at Hiccup

"HICCUP" she shouted as she was shaking him, then she punched him in the Stomach making him cough and opening his eyes at the same time

"OWâ€¦That really hurt" he said

Hiccup could hear the crowd cheered, as he held Astrid in his arms he looked over to the judges for the score 3â€¦3â€¦1. Mulch walked over to the couple

"7 out 9 for our last couple, they did an excellent job, well done hiccup for risking your life for Astridâ€¦what happened up there?" he asked

"I don't knowâ€¦but I will find out later" Hiccup said as Astrid popped her head out

"The wings wouldn't deploy" she said

It was the end of the event now it was time to head home, Astrid and Hiccup was the last ones to leave, Stormfly and Toothless walked them home as they were trying to figure out what went wrong

"The night before the suites were working rightâ€¦someone sabotage your suit!" hiccup said

"How do you know?" she asked

"I don't know but when I find outâ€¦someone is going to pay" hiccup said as he dismounted from Toothless, helped Astrid down and enter the house for the night.

**A/N: Wow what an Event...someone doesn't want our favorite couple to win, who was itâ€¦we'll find out next time on Thawfest Couple's Edition, next up on the event is the fly and shoot. P.S Sorry it took so long to post, I've been working on my squeal from my first two storiesâ€¦plus I wanted to make sure everyone who is following me got

to watch HTTYD2 cause my next story will include my ideal on how the movie should have been, plus I will be writing short stories on how Astrid got her suit in the first time, so with that said thanks for waiting patientlyâ€¦I'll have the next chapter up by the end of the week Matt the Vast out **

8. Chapter 7 fly and shoot part 1

Hey guys, here is Chapter 7 of Thawfest Couples edition, for this final event it is fly and shoot. At the end of the previously chapter hiccup thinks Astrid's suites was sabotage, Hiccup wanted to find out who did but was too tired. Here is part one where it's Astrid finding Heather sneaking around Berk, let's see what happens in this last event.

Chapter 7: Fly and Shoot part 1 (the night before the event)

Astrid's POV:

The night was calmed, Berk was quite and asleep. As I lay in bed, I looked over to the man I fell in love with, he risked his life to save mineâ€¦he could have died. He wanted to find out who sabotage my suite, but he was too hurt he needed rest. I felt I needed to find who did, I snuck out of bed placed my fur coat on, Toothless and Stormfly popped their heads up making a purring sound, I walked over to them and stroke their heads

"You guys were amazingâ€¦thanks for saving us" I said

"Purrâ€¦Purr" Toothless and Stormfly made

I started to make my way to the door, when I felt being pushed I turned around to see both dragons looking like they wanted to go flying

"I can't fly tonight, Toothlessâ€¦ you and Stormfly are hurt. I'm just going to the forge to investigate" I said

When I opened the door Toothless and Stormfly shot out the door and into the air

"_Toothâ€¦Stormfly come back_" I whispered

They were too far, so I went over to the forge where the suites were laying on Hiccup's desk, I picked up my suit and started to look at it, I remember the time he made this for me, I chased him all over the island, cause he stole my breast binding without askingâ€¦ah good times. But looking back at my suite I looked at the device to release the wings, I noticed the screws were stripped

"Somebody messed with the gears" I said

I found a screw driver and unscrewed the bolts from mine and Hiccup's, once I uncovered the plates I noticed that hiccup had all his gears and mine was missing one. "_Crack" _I stopped from the sound on the floor boards, someone was in the forge I hide behind Hiccup's desk and looked over to see a tall female snooping around

"_Heather"_ I whispered I grabbed my axe slowly then I got up

"FREEZE HEATHER" I shouted

She fled the forge with me running after her, she ran into the woods, I whistle for Stormfly, she came around and jumped on

"Head for the woods girl"

She took off heading in; I looked over and saw Toothless flying parallel

"Toothless you head that way, once you find her shot plasma in the sky" I said

He let out a small growl and headed in the other direction, as for me I knew how to track someone. It's been 20min and I haven't found her, just when I thought I was going to give up

"ROARRâ€¦BANG" a purple light glowed in the distance

"Come on girlâ€¦I know where she went" I said

I reached where toothless was waiting for me, when I dismounted from Stormfly I saw Toothless pinning heather to the ground, he eyes narrowed ready to strike

"Heal Toothless" I said

He eased off heather but keep his eyes on her in case she runs, I walked to him and pointed my axe at her

"Start talkingâ€¦what were you doing in the forge?" I asked

"Why were you in the forge?" heather asked

"I was trying to find out who sabotage my suiteâ€¦and from what I found I think it was YOU" I said still pointing my axe at her

"Do you really think I would do that...Come on Astrid" heather said starting to stand up

"I know what you're doingâ€¦you want us to lose so you can win the games" I said

"I really don't care Astridâ€¦and what if I did sabotage your suiteâ€¦at least you would forfeit the tournament, me and Snotlout would win" she said I was so mad I charged at her with my axe

"AHAHA" I yelled

She grabbed my axe threw it to the ground then with her other hand I felt a punch to my stomach making me gasped for air, when I was able to breathe I looked up to be punched in the face. I fell to the ground, when I opened my eyes I looked up at her, she stared at me.

"You better watch your backâ€¦because if you accuse me again like that I'll kill you" she said then kicked me in the ribs, as I lay there I saw her run off in the distance heading back to the village. I slowly got up found toothless and Stormfly waiting for me, I mounted on her and flew back to hiccup's house. I snuck in thru the window, he was still asleep, and I slid back into bed while Toothless and Stormfly slept on his stone "Tomorrowâ€¦your mine heather" I said falling back to sleep.

**A/N Oh manâ€¦ what is Astrid going to do? Turn heather in, tell hiccup it was her that sabotages her suite, or is she going to forget it, or is there going to be a fight after the challenge, please review and wait for part two. P.S I hope you guys like this with that said Matt the Vast Out **

9. Chapter 7 fly and shoot part 2

A/N ok guys here is part 2 of chapter 7 fly and shoot, right where we left off the night before the next event, Astrid couldn't sleep from the last event disaster. So she went to the forge to investigate, only to find heather snooping around the forge, Astrid chased her into the woods, Astrid was ready to attack only to be beaten to the ground. She soon recovered and headed back to Hiccup's house without waking him upâ€¦will she tell him it was heather, or defeat her in the competition let's find out oh P.S first place is up for grabs Hiccup Astrid and Snotlout Heather are tied for first

Chapter 7 Fly and shoot

It was the morning of the last event; everyone was heading to the arena, Snotlout, Heather were the first ones to enter, then Tuffnut Maria, Fishlegs, Ruffnut, and Hiccup. Astrid wasn't at Hiccup's side, Snotlout walked over to him.

"Hey hiccup where's your girlfriend at did she sleep in like youâ€¦or you here to forfeit the event?"

"I'm sure she'll be hereâ€¦give her time" Hiccup said

"Didn't she stay with you" Fishlegs asked

"Yea but when I woke up she was gone" he said

Everyone was ready for the next event; Stoick and Gobber enter the arena, the coward started to cheer, Hiccup was looking around to see where Astrid was but she wasn't anywhere near the arena. Stoick walked over raised his hands to quite the cowards.

"Ladies and Gentlemenâ€¦this has been a great thawfest games we have ever had" he said then looking at the couples "You all have done a wonderful job but there can only be one winnerâ€¦good luck to all of you" he finished. He looked at each one of them; he looked over at hiccup that was by himself without Astrid.

"Hiccup where is Astrid?"

"I don't knowâ€¦she was with me last nightâ€¦but this morning she was gone" he said

"HAHAâ€¦maybe she didn't want to be with a LOSER" Snotlout shouted

"Hiccup if Astrid isn't here soon you'll have to forâ€¦" just when Stoick was about to finish a familiar voice sounded

"I'M HERE" Astrid said

Hiccup who was looking up saw the shadow of Stormfly's body fly across the arena, and landed next to him and Toothless, she turned her head, gave a slight smile, then she turned to Stoick

"Sorry for being late Chiefâ€¦got carried away from my axe throwingâ€¦I'm ready" she stated Stoick nodded his head, turned around to get the cowards attention again; Astrid looked at hiccup, she opened her mouth like she wanted to say something, but Stoick started to speak, she looked at him and whispered

"_We need to talk laterâ€¦meet me at the cove" _she said. Hiccup nodded his head and watches his dad talk.

"And here to explain our last event is Gobber!" Stoick said.

"For this last event the couples will work together to take down the enemy and spare the hostages lives, the couple with the best score out of 9 will win. The first couple up is Fishlegs, and Ruffnut" Gobber said, but Fishlegs ran up to Gobber

"Ah sirâ€¦I think we need to forfeit this event, Ruffnut isn't feeling well" Fishlegs said

Gobber looked over and saw that Ruffnut was very pale, and that she looked unfit to compete. So he went over to her, then went to Stoick. They both were talk for a short minute then Gobber made the announcement

"It appears that Fishlegs and Ruffnut have decided to forfeit the match, due to Ruffnut being ill, so with that said, the couple that will take their place is Tuffnut and Maria with Barf and Belch and Maria's Dragon Adalinda" Gobber said, Tuffnut and Maria took to the sky heading to the docks; the enemy started popping up faster

"Tuffâ€¦take my left, hit them with the gas" Maria said

Tuffnut had barf and belch spray the outcast with the gas then belch ignited the gas with his spark, causing a huge explosion, when he turned around, an enemy shot out of nowhere heading towards Maria

"MARIA BEHIND YOU!" he said Maria shot around quick

"Adalinda lava blast now!" Maria screamed

Adalinda shot the lava blast but they both forgot that there was some extra gas from Barf and Belch, that once the lava hit the gasâ€¦

"BOOM" There was a huge explosion, the coward went into shock,

Fishlegs and Ruffnut came back to the arena, with black dust on their faces. Tuffnut and Maria jumped off their dragons, and waited for their scores.

"You guys did a great job, but from the explosion I think you spared half the village, let's see what the judges thinkâ€¦2â€¦2â€¦1. A score of 5 out of 9, that was a great run let's see how Snotlout and Heather do" Gobber says. Next up was Snotlout and Heather, they both mounted their dragons, just before they took to the skies, and Snotlout looked over at Hiccup and Astrid.

"We're going to winâ€¦babe lets show these loser how it's done" he said.

She nodded her head and they took the skies heading to the targets, the enemy started to popup faster this time, the first enemy came up behind him

"Snotloutâ€¦on your ten" Heather screamed, he turned Hookfang around and aimed at the target

"Fire" Snotlout shouted at Hookfang who blasted the target to pieces, he looked over at Heather

"Your next" he said. Heather started to make her move, the targets started to popup quicker, she looked at the enemy

"Fire Lady" she said

Snotlout and Heather was firing at everything, like they didn't care about the people, there was nothing but fire and smoke, Snotlout's father yelled from the crowed "Snotlout what are you doing get that dragon under control" he said

They headed back to the arena dismounted from their dragons and waited for the smoke to disappeared, Gobber waited with them, once the smoke was gone it showed that all enemies were destroyed, and the village people were saved

"How did they do that?" hiccup said looking shocked

"Impossible!" Astrid said

The Judges came together, then handed Gobber the scores

"3â€¦3â€¦3â€¦ 9 out of 9 goes to Snotlout and Heather, well done to them" Gobber said

"That rightâ€¦that's how we do itâ€¦can you two do better" Snotlout said pointing at Hiccup and Astrid.

"For our last couple it'sâ€¦" before Gobber could finish

"ROARRR" Toothless roared

Hiccup and Astrid shot into the sky heading towards the docks, when they reached the targets they started to attack the outcasts

"Hiccupâ€¦hang right twelve clock" Astrid said he turned around towards the target

"Plasma blast"

Toothless shot at the target destroying it in pieces, next two targets popped up holding the village hostage

"Stormfly spike shot" Astrid yelled, Stormfly shot her spikes towards the outcast

"Plasma blast" Hiccup shouted, Toothless shot his plasma blast towards the spikes, when they reached the spikes caught fired and struck the targets "Boom" the crowed was watching Hiccup and Astrid hitting their targets, spikes and plasma blast where flying all over the docks. Once the firing was done they headed back to the arena to wait their scores.

They landed, dismounted from their dragons and walked over to Gobber, who was talking to the judges and read the scores to the crowed

"This was a close one ladies and gentlemen, the score are 3â€¦3â€¦1 a total of 7 out of 9, that means that Snotlout and Heather have won this event, that means that we have a tie. A tie breaker will determine the winner"

It was the end of the last event Snotlout walked over to Hiccup and Astrid, giving them a smile smirk "May the best Viking win, see you tomorrowâ€¦or maybe not" he said walking away "Hiccup I still need to talk to youâ€¦after you talk to your dad, meet me at the cove" she said and flew home.

**A/N: Wow this was a hard chapter to write sorry for taking so long, plus I got caught up with work and family that I didn't have time to finish. For this tie breaker I need your help, please review and tell me how it should end, plus I'm writing some small one shot stories, if you have ideal you want pm, and one for thing, I will be starting my big story that will tie into HTTYD2 with that said MATT THE VAST OUT **

10. Chapter 8-tie breaker

Hey guys here is chapter 8 of the Thawfeast couples edition sorry for the delay I have been really busy with work and writing my third major story, plus I have three small one shot stories for you including a holiday edition, so for this chapter it will leave off with Hiccup and Astrid meeting at the cove then the tie breaker with that said here is chapter 8.

Chapter 8 the tie breaker

(The night before the finale event)

Berk was quite, and everyone went to sleep, Astrid jumped out from her window and headed over to the stable to get Stormfly. Stormfly lifted her head and saw her rider running towards her; she made a purring sound and ran to her lowering her head into her chest. Astrid laughed as she stroke Stormfly's head

"Come on girl we need to meet up with Hiccup at the cove, plus It's a great night for flying" she said

Astrid mounted Stormfly and headed towards the cove. An hours has passed and Astrid was at the cove waiting for Hiccup, she was drawing in the dirt with stick, as was Stormflyâ€¦she was using her spikes to draw too Astrid looked at it for a minute then her eyes widen.

"Are you trying to draw Toothless?" she asked. Stormfly looked at her made a squawking sound.

"ROARRR"

Astrid looked up to see a black dragon fly over her, she let out a small smile, then looked over at Stormfly who was scratching at the dirt like she was hiding something

"Oh you know who's comingâ€¦you don't want him to see it huh girl" Astrid said laughing as Stormfly tired covering up her drawing

"Astrid?" Hiccup said landing in the cove and dismounting from toothless who went over to Stormfly

"Hey Hiccupâ€¦how did everything go with your dad?" she asked

"Everything went greatâ€¦he said this year's Thawfest is one of our best this year since he competed in" Hiccup said then looked at her with serious face

"But what did you want to talk about with me?" he asked

Astrid looked at him with sad face, like she just wanted to jump in his arms and never let go, she ran to him wrapped her arms around him making sure he wasn't going to leave, a few seconds later she pulled her head away looked at hiccup. Both their eyes locked hiccup could see the moon reflecting off her icy blue eyes. She pulled him closer and locked her soft lips with his; their passionate kiss lasted in seconds only to both being pulled apart from their dragons.

"SWEET BABY THOR IN A THUNDERSTORM" Astrid yelled crossing her arms and being hung from Stormfly's mouth, Hiccup laughed as he was being hung from Toothless's mouth.

"Toothlessâ€¦Stormfly put us down" Hiccup said and both dragons laid them on the ground, Hiccup walked over to Astrid sat down next to her with the dragons laying behind them for support, he looked at the sky then looked at Astrid

"So what did you want to tell me?" he asked

Astrid looked at the ground watching her move her feet in the dirt

"Astrid?" he asked again

"Hiccupâ€¦I thinkâ€¦" she paused

"Hiccupâ€¦I think Heather sabotage my suite, the night after the accident I caught her in forge holding my suite, it was her the whole time" she said

"It wasn't her Astrid" he said only to have her eyes widen

"WHAT DO YOU MEAN" She yelled, hiccup calmed her down

"That night when you fell asleep, my dad came to get me, took me to the great hall where they were holding a meeting, he said that an outcast solider caught running to the docks only to escape, he thinks that it was Alvin's men from outcast Islands." He explained

"Really?" she said

"Yea my Dad wanted to cancel the gamesâ€¦but I convinced him to keep it going by adding more security" he said

"That's goodâ€¦how did you increase the security?" she asked

"You'll have to wait" he said holding her in his arms "But let's figure out our plan to win the race tomorrow" he said

(The next morningâ€¦Race Day)

Everyone was heading to the arena, the final two couples was there waiting for the race to begin, the crowed started to cheer as Stoick and Gobber walked in. Stoick raised his hands to quite the crowed down.

"This year's Thawfest games will be something worth remembering, every couple did a great jobâ€¦but there can only be one champ, to determine a winner here is Gobber who will go over the tie breaker" Stoick said

"Thanks chief, like he saidâ€¦now the couples will start here in the stadium, avoid the log dodge, both will climb the cliff, when they reach the top the first set will loop around the ship anchored off the coast, fly thru the sea-stacked maze then back here. The first couple to finish first wins" Gobber explained to the crowed who was screaming

"I got goosebumps!" Gobber shouted

The sound of the crowed meant it was time for the race to begin Snotlout Heather, Astrid and Hiccup took their places

"Good luck losersâ€¦we're winning this!" Snotlout said

"Vikings and Dragons take your positions" Mulch said

"BING" the sound from Bucket's head

The Couples spirited forward heading towards the log dodge, the first couple to make it to the logs were Hiccup and Astrid, the logs were rolling too fast for Astrid, she trips over one, Hiccup ran over picked her up and carried her the rest of the way to the cliff.

"Wowâ€¦what a great move by Hiccup!" Mulch said

"I love lady lugging!" Bucket said with excitement

Snotlout and Heather weren't far behind, Hiccup and Astrid started to climb the cliff, Astrid looked down and saw Heather climb onto Snotlout, and then jump over him grabbed the rocks, then watched Snotlout do the exact thing. When she looked up the Vikings were throwing rocks at them, one of the rocks hits her hand and she starts slipping down the cliff.

"Hiccup!" she screamed

He grabs her within seconds, with all his weight holding on, Snotlout and heather reached the top and Snotlout mounted Hookfang and took off. Hiccup looked at Astrid, the crowed was in panic mode

"Get ready I'm going to throw you upâ€¦Ready?" he asked

She nodded, with all his might like the Thor almighty, he threw Astrid up to the top of cliff, and once she reached the top she turned around grabbed Hiccup by the collar and yanked him up towards Toothless. Hiccup stood up mounted Toothless and shot into the air chasing after Snotlout. Snotlout had a five second head start, Hiccup patted on Toothless head.

"Let's show them what we're made of bud" Hiccup said clicking Toothless's wing.

"HOLY THOR ALMIGHTâ€¦Look at that burst of speed Bucket!" Mulch screamed

Hiccup and Snotlout was neck and neck when they reached the maze fly thru it, Snotlout pushed Hiccup and Toothless

"OUT OF MY WAY LOSSERâ€¦I'M WINNING THIS!" Snotlout shouted as he landed and Heather took off, Hiccup was next to Astrid, he turned to her

"GO Get Her Astridâ€¦Remember what I taught you" he said

She nodded and took off after heather, heather was already closing in to loop around the ship anchored, then heading for the sea-stacked maze

"See you later Loser" heather said as she headed for the maze

"I'm getting tired of them saying thatâ€¦Come on girl lets show that bitch who's really fast" Astrid said. Once around the loop, Astrid laid on her stomach, while her body laid flat on Stormfly's back

"Now girl" she screamed

Stormfly started flapping her wings faster and faster, she folded her wings in and dove down into the maze, she expanded her wings, with a burst of speed Stormfly glided passed heather.

"WHAT THE HELL!" she yelled Astrid had a huge smile on her face, Hiccup was watching her from the Arena

"NICE she did it" He said

"It can't beâ€¦NOâ€¦Heather Beat her" Snotlout screamed at her.

Heather was mad she flew down next to Stormfly and slammed into her causing her to run off course

"STORMFLY UP!" Astrid yelled

"BYE LOSSER" Heather said

Astrid flew into the air to regain control of Stormfly, she looked down, saw heather was half way home, Astrid looked around for an opening, when she found it she placed her hand on Stormfly.

"Right there girlâ€¦on my markâ€¦ONEâ€¦TWOâ€¦THREE" she said

Stormfly lifted her body and shot down into a dive heading for the opening that would cut off Heather, Hiccup saw Astrid

"She as to go the long wayâ€¦she won't make it!" he said

Astrid was again laying on her stomach with her body lying flat, on Stormfly's back she turned her head to see where Heather was, which was seconds away from impact

"NOW GIRL!" Astrid said Stormfly extended her wings and made a sharp left turn, blocking Heather from taking the lead, heather's eyes widen as Astrid and Stormfly crossed the finish line first.

"NOOOO!" she yelled

The crowed screamed with excitement as Astrid and Stormfly crossed the finish line, Snotlout ran over to heather who was still crying from losing the race, he hugged her, kissed her forehead

"It's okâ€¦I'm still proud of you" he said

"Really?"

"Yea you were amazingâ€¦Hiccup and Astrid?" he asked as they turned heads

"You guys were amazing out thereâ€¦Astrid that was some great flying skills" he said as they both shook hands and waited for Stoick and Gobber. Stoick walked over to the center of the arena where Astrid Hiccup Snotlout and Heather was waiting for the official announcement

"This year's Thawfest competition was quite the excitement, but there can only be one winnerâ€¦so with that saidâ€¦this year's Thawfest Champions are HICCUP AND ASTRID!"

The crowd went wild screaming and yelling Hiccup and Astrid's name, they both hug each other looked at each other, then gave both a passionate kiss only to be broken apart from their dragons, who wanted to be part of the celebrations. "LET US CELEBRATE" Stoick

said, the whole village went home to get ready for the big feast that was being prepped for the evening.
